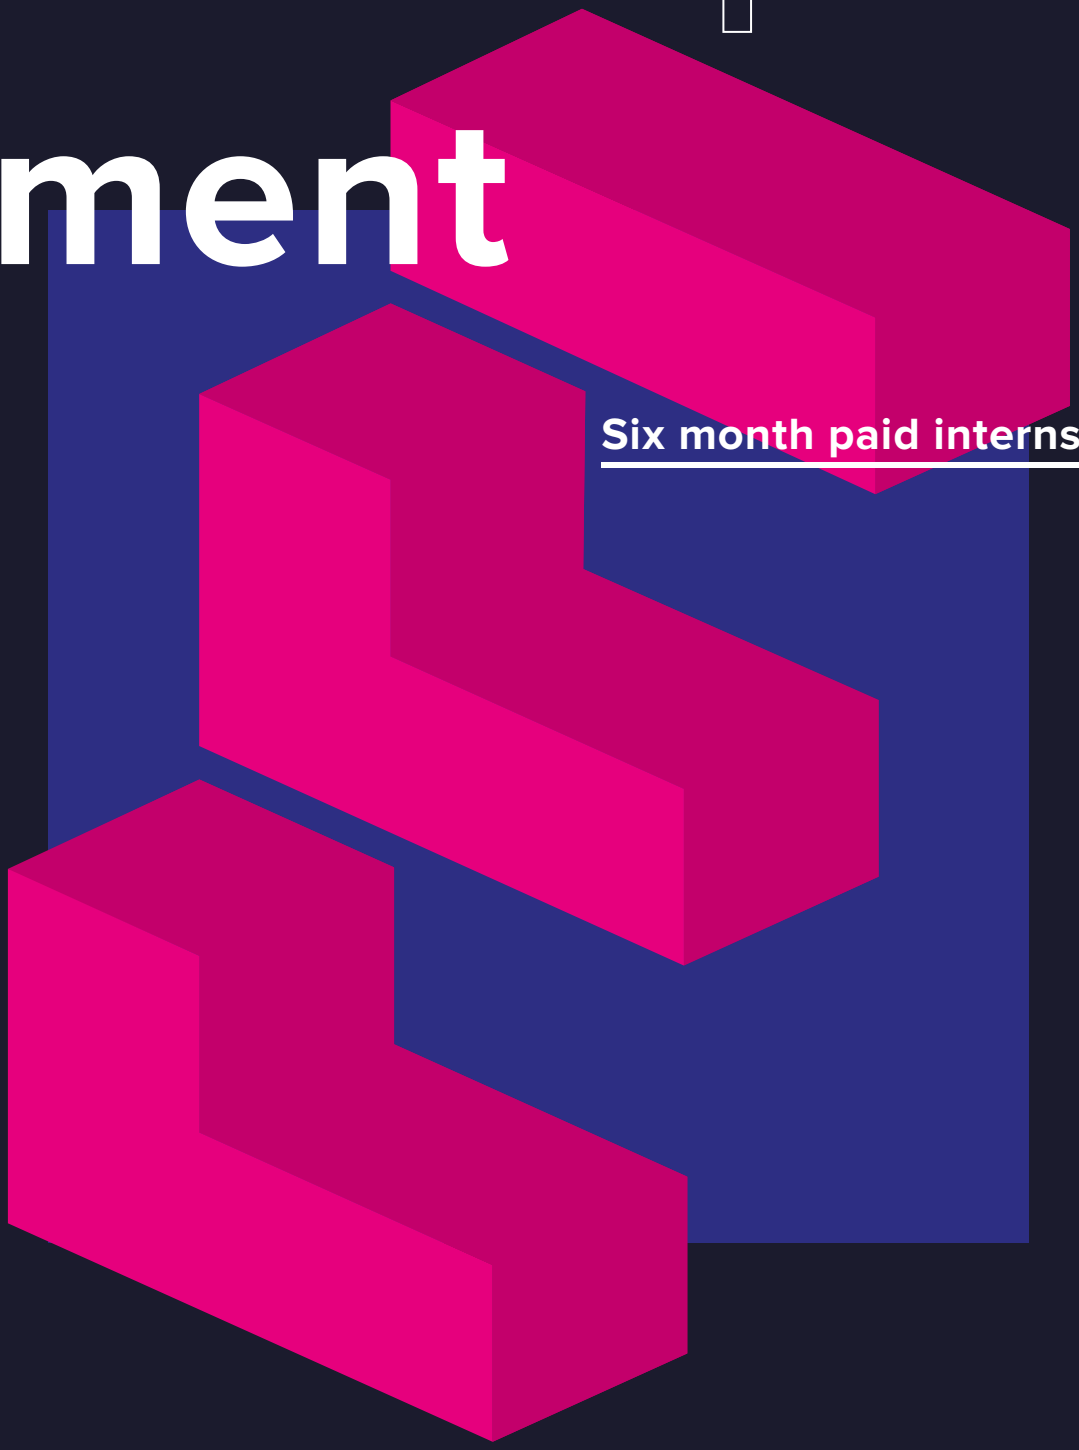
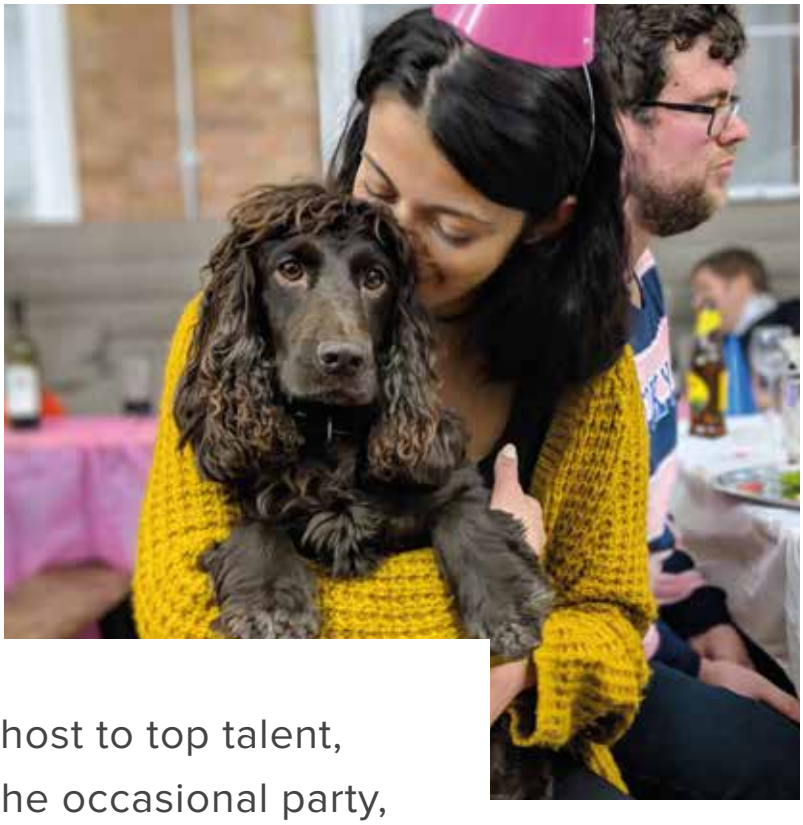
Develop-ment



Six month paid internship

Starting July 1st 2019



Etch a studio that is host to top talent, an eclectic playlist, the occasional party, and Bonnie, the studio dog.

We create, build and market human-centred digital products and experiences. Through strategy, user experience design and digital marketing, we help businesses grow - including The Royal Yachting Association, Old Mutual Wealth and The Pig Hotels, and some of the world's largest brands, including British Airways, Selfridges, GSK, Tesco and Clinique.

You'll excel within your time at Etch, through hands-on training and regular reviews to keep you progressing with your personal development.

Role & Responsibilities

Joining Etch's internship scheme, you'll have the opportunity to get experience with a range of talented individuals whilst getting an insight to how projects are run in a fast pace agency environment.

Based in the Digital Products team, you'll be learning and developing new skills and learning about various technologies. You'll be required to bring your own passions, ideas and fun to the team and collaborate with the team to help our partners think beyond the ordinary.

You'll spend time gaining a true understanding of the business needs and ultimately be involved in building awesome products.

Your main responsibilities

01 Assist with building amazing products that solve our clients' problems.

02 Learn and develop new skills in interesting technologies E.g C#, Typescript, React, HTML and CSS

03 Work closely with product and design to drive product delivery and client outcomes at speed.

04 Participate in stand ups, code review sessions etc and put forward your ideas.

05 Learn and experiment with new domains and new methodologies.

06 Other ad-hoc duties as required

Experience:

- An interest in programming, such as in C# or JavaScript frameworks like React
- You've got experience in creating things for the web, either as part of your education or as a hobby.

Personal Competencies:

- You see a career as a software developer.
- You're ferociously curious, love learning new things and teaching others about them.
- You have the ability to take responsibility and ownership.
- You are comfortable solving problems independently as well as part of a team, prioritising heavy workloads, working under pressure and multitasking.
- You have excellent attention to detail.
- You have outstanding people skills.
- You possess the ability to prioritise to tight deadlines with a strong sense of initiative and discretion.

What you will learn:

- You have the ability to learn quickly
- Gaining experience relevant to your passion
- How to operate in an agency environment
- Enhance the skills you have and put them to use in real projects
- How to develop and maintain professional relationships
- Honing your ability to manage time effectively and work under pressure
- All about the agency world!

Working hours

Working hours: 8.30am-5.30pm, Monday to Thursday and 8.30am – 3pm on Friday!
